Dear Gita,

we met in Berlin on Monday when you introduced your association at the "Action for Dignity and Reconciliation" benefit.

You made a huge impression on me, as you made clear what a difficult situation many survivors of the Shoa find themselves in today. Their time is running out. Your appeal for action to be taken immediately was both moving and to the point. You inspired me to raise the issue with the German government again.

Unfortunately, I was unable to give you my business card. I promised to get in touch and give you my contact details. They are as follows:
